CAREER OBJECTIVE

Eager to leverage my technical skills and B-Tech background in a CS role that prioritizes innovation and growth, aiming to make meaningful contributions while continuously expanding my expertise.

EXPERIENCE

- **React Frontend Developer**
  Insoftlink Software — Oct 2025 – Present | Delhi, India (On-site)
  - Developing and maintaining the School Management Web App, focusing on the Admin Panel with live data dashboards.
  - Refactoring and upgrading legacy code to modern React versions, improving performance, scalability, and code structure.
  - Implementing UI/UX enhancements, optimized API integrations, and reusable components to deliver a smoother and more efficient application.
- **MERN – Next Js Developer Intern**
  Eddy Tools Internship — Dec 2024 – Feb 2025 | Mumbai, India (Work For Home)
  - Master React Context, Redux; optimize API calls with React Query/SWR; understand SSR, SSG, and ISR.
  - Build REST APIs with Express.js, manage databases using Prisma/Mongoose, and implement authentication with NextAuth.js or JWT.
  - Optimize with lazy loading, caching, and bundle splitting; deploy on Vercel/AWS; enhance SEO & accessibility using Next.js best practices.
- **React Developer Intern**
  Sum India | Hotbot Studio. Internship — June 2024 – Nov 2024 | Delhi, India (Hybrid)
  - Led the initial development of Sum India and Hotbot Studios' web pages, ensuring efficient design and functionality.
  - Developed expertise in React.js and other UI frameworks to enhance frontend development capabilities.
  - Contributed to the development of Sharma Blades, delivering a live, customer-facing platform with dynamic features

SKILLS

- **Programming Languages:** JavaScript (ES6+), React JS, Python, C++, HTML, CSS
- **Web Frameworks:** React, React Native, Bootstrap, Tailwind CSS, Node.js, Express, Next.js
- **Database Management:** MongoDB, MySQL
- **Other Technologies:** Git, GitHub, GSAP, PHP, EJS
- **Additional Skills:** Strong debugging, problem-solving, and optimization skills
- **Development Tools:** Visual Studio Code, GitHub

PROJECTS (Live)

Doctor's Appointment   [07 Dec 24 – 20 Jan 25]
- **Key Skills: React, MongoDB, Express, Node.js, Tailwind CSS**
- **GitHub Repo:** https://github.com/KamleshKandpal1/Med-Point_Appointment
- **Description:** Developed a modular appointment booking system with separate Backend, Frontend, and Admin panels. Features include patient-doctor scheduling, appointment status updates, and doctor management. Built using React, Tailwind CSS, Node.js, Express, MongoDB, and JWT authentication.

Task-Management Application   [08 Sept 24 – 16 Nov 24]
- **Key Skills: React, MongoDB, Express, Node.js, Tailwind CSS**
- **GitHub Repo:**
  - https://github.com/KamleshKandpal1/Task-Mang-Frontend,
  - https://github.com/KamleshKandpal1/Task-Mang-api-Backend

- **Description:** This application is built for single-person use and helped me gain experience in creating REST APIs, handling CORS, checking APIs, user authentication, route creation, and understanding the importance of user models.

Sharma Blades   [15 Oct 24 – 10 Jan 25]
- **Key Skills:** React, Tailwind, React-Page Flip, React-Pdf,
- **Live Link:** https://sharmablades.in/
- **Description:** Designed and developed a responsive website showcasing various kitchen blades with detailed descriptions and images. Utilized React and Tailwind CSS, featuring dynamic product listings, custom search functionality, and category-specific pages for enhanced user experience and product discoverability

EDUCATION

J.B. Knowledge Park (MDU), Haryana   [2019 – 2023]
- Bachelor of Technology (CSE)
- Percentage: – 60.00

Nalanda Modern Public School (C.B.S.E), Delhi   [2018 – 2019]
- Senior Secondary School Certificate
- Percentage: - 60.00
